Home and Hospital Instruction

A student who is absent from school because of a medical condition may be eligible for instruction in the student's home, hospital or nonschool location. Eligibility shall be determined by State law and the Illinois State Board of Education rule governing the continuum of placement options for home/hospital services. Appropriate educational services from qualified staff shall begin as soon as eligibility is established.

A student who is unable to attend school because of pregnancy will be provided home instruction, correspondence courses, or other courses of instruction before the birth of the child when the student's physician indicates, in writing, that she is medically unable to attend regular classroom instruction as well as for up to 3 months after the child's birth or a miscarriage.

Periodic conferences will be held between appropriate school personnel, parent(s)/guardian(s), and hospital staff to coordinate course work and facilitate a student's return to school.
