Student Records

School student records are confidential and information from them shall not be released other than as provided by law. Any record that contains personally identifiable information or other information that would link the document to an individual student is a school student record if maintained by the District, except: (1) records that are kept in the sole possession of a school staff member, are destroyed not later than the student's graduation or permanent withdrawal, and (2) records kept by law enforcement officials working in the school.

State and federal law grants students and parents/guardians certain rights, including the right to inspect, copy, and challenge school records. The information contained in school student records shall be kept current, accurate, clear, and relevant. All information maintained concerning a student receiving special education services shall be directly related to the provision of services to that child. The District may release directory information as permitted by law, but a parent/guardian shall have the right to object to the release of information regarding his or her child. However, the District will comply with an *ex parte* court order requiring it to permit the U.S. Attorney General or designee to have access to a student's school records without notice to, or the consent of, the student's parent/guardian.

The Superintendent or designee shall inform staff members of this policy, and shall inform students and their parents/guardians of it, as well as their rights regarding student school records through the Parent/Student Handbook.
