

Focus Statement: Students will draw conclusions and make connections about science and health.

Sci.K.1. Students will identify questions about nature and living things.

- Sci.K.1.1 Locate interesting photos from science theme related materials
- Sci.K.1.2 State curious or interesting discoveries from the reading to the larger group
- Sci.K.1.3 Brainstorm what we want to know about this topic and record student responses on chart paper

Sci.K.2. Students will analyze data from explored information.

- Sci.K.2.1 Explore and observe science themed related materials
- Sci.K.2.2 Develop questions on science theme (weather, plants, metamorphosis)
- Sci.K.2.3 Research science theme through observation, exploration, investigation and discussion
- Sci.K.2.4 Collect, record, compare and describe information

Sci.K.3. Students will develop personal connections with nature and living things.

- Sci.K.3.1 Decide characteristics of basic needs
- Sci.K.3.2 Name stages of a life cycle
- Sci.K.3.3 Compare animal habits and habitats
- S.K.3.4 Apply basic safety practice

Kindergarten Science Themes

Neighborhood Critters, Trees, Fall Harvest Pumpkins, My Five Senses My Body, Ocean, Farm,
Bugs and Insects, Plants, Caterpillars to Butterflies
